Addis Ababa, Ethiopia

EDUCATION

2017 - 2021

WOLAYITASODO UNIVERSITY

- BSc Electrical and Computer Enginerring

Jan,2024 -Aug, 2024
EVANGADI TECH

Full stack Development | MERN

SKILLS

- Front-End Development (HTML, CSS, Js, and React)
- Back-End Development (Node, Express, and mySQL)
- Version Control (Git and GitHub)
- Responsive Design
- Problem-Solving

LANGUAGES

- English (Intermediate)
- Amharic (Fluent)
- Awigna (Fluent)

PROFILE

Iama dedicatedand versatile Full Stack (MERN) Developer with a robust background in RF Engineering, and hands-on experience in developing web applications. I completed significant projects, including an Amazon clone, Netflix clone, and Evangadi-form (Q&A)web application. Leveraged two years of experience in Microwave Research and Development to enhance problem-solving skills and technical knowledge. Eager to contribute to innovative projects and grow in a dynamictech environment.

WORK EXPERIENCE

- **Information Network security Admnistration(INSA)** 2023 - PRESENT

  RF/Microwave Engineer

  - Specialized in generatingfrequenciesfor wirelesscommunication and broadcasting purposes.
  - Designing and implementing RF systems for optimal performance in wireless communication networks.
  - Developing and testing RF circuits and components to meet stringent performance criteria.
  - Collaborating with cross-functional teams to integrate RF solutions into broader communication systems.
  - Utilizing advanced simulation tools to model and predict RF behavior in various environments.
  - This experience honed my analytical skills and provided a strong foundation in problem-solving, which I now apply to my work as a Full Stack Developer.

- **School of Tomorrow PLC** Oct,2022- Apr,2023

  - Developing and delivering comprehensive IT curriculum for students of different age groups and skill levels.
  - Conducting hands-on training sessions in computer fundamentals.
  - Creating engaging and interactive learning materials to enhance student understanding and retention.
  - Assessing student performance and providing constructive feedback to support their growth.
  - Collaborating with other instructors to integrate technology into the broader educational framewor
  - This role allowed me to refine my communication and teaching skills, which are invaluable in my current work.

WORK EXPERIENCE CONTINUED.....

Ethiotelecom Jun,2022- Sept,2022

Office Technician

- Digitalizing OSP (Outside Plant) infrastructures to improve efficiency and accuracy.
- Checking the status of wired infrastructure, including both duct or underground and overhead connections.
- Collaborating with field technicians to coordinate repairs and installations.
- Documenting and updating infrastructure records to reflect current status and changes.
- This role enhanced my technical skills and provided valuable experience in managing and maintaining telecom infrastructure, which I now apply to my work as a Full Stack Developer.

PROJECTS ON FULL STACK

neflix clone

- Created a streaming service interface with React, integrating APIs for dynamic content loading. Focused on responsive design to enhance user experience across devices.
- link to Github :https://github.com/Mignot-m/Netflix-Clone

Amazon clone

- Developed a fully functional e-commerce platform using React for the front end and Node.js for the back end. Implemented user authentication, product listing, and shopping cart functionalities.
- link :https://app.netlify.com/sites/mignote-devs-amazon-clone/

Evangadi-forum (Q&A) app

- Evangadi Forum is aquestion-and-answerweb application designed to facilitate knowledge sharing and community interaction. Users can post questions, provide answers, and engage in discussions on various topics. The platform aims to create a supportive environment where users can seek help and share their expertise.
- Developed by Express backend ,React.js frontend ,and mySQL for database. Live
